

Minnesota Positive Behavioral Interventions and Supports (PBIS) Sustaining Exemplar Recognition Across the Years

Minnesota ***schools*** and ***districts*** are invited each school year to apply for PBIS Sustaining Exemplar Recognition. The purpose of Minnesota Exemplar Recognition is to identify and recognize schools that have implemented PBIS and are continuing to achieve positive student outcomes.

In addition to individual school recognition, districts that are coordinating and supporting their PBIS schools can apply for district recognition. To be identified for district recognition, districts demonstrate their capacity for coordination, training, coaching and evaluation to support schools in their district to implement School Wide PBIS. There are two levels of recognition at the district level. The first is to highlight districts that are *in progress towards sustaining implementation* and have multiple schools measuring fidelity annually. The second is to highlight districts that have *demonstrated exemplar district capacity with over 60% of schools implementing SW-PBIS with fidelity as measured annually*.
